DETAILED ACTION

1. A request for continued examination under 37 CFR 1.114, including the fee set forth in 37 CFR 1.17(e), was filed in this application after allowance or after an Office action under *Ex Parte Quayle*, 25 USPQ 74, 453 O.G. 213 (Comm'r Pat. 1935). Since this application is eligible for continued examination under 37 CFR 1.114, and the fee set forth in 37 CFR 1.17(e) has been timely paid, prosecution in this application has been reopened pursuant to 37 CFR 1.114. Applicant's submission filed on May 6, 2008 has been entered.
2. Applicant filed an IDS with the request for continued examination. The IDS has been fully and carefully considered. The cited application 09/133,623 has been expressly abandoned. The EP 0401512 patent cited on the IDS is in German, which corresponds to Hoffmann et al., USP 6,082,120 which is drawn to an Apparatus and process for cooling foam products such as ice cream. Hoffmann et al. teach a process of continuously deep freezing ice creams without using deep freezing tunnels. The process includes aerating an ice mixture with air at a temperature of 12°C, followed by cooling the foam to -5°C which pre freezes the foam; subsequently the ice cream or foam is feed through a combined extruder system where the pre frozen edible produces cooled down to -20°C. Hoffmann et al. do not teach or suggest the amount of time that the foam or ice cream product is cooled within 30 seconds as claimed. Hoffmann does not teach that the ice cream composition or foam includes AFP's as claimed which does significantly affect the conditions for freezing and therefore, Hoffmann does not teach and/or suggest the method and ice cream preparation as claimed.
3. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Mr. G. McGowan on January 18, 2008.

The application has been amended as follows:

In the Claims:

Claim 7, after "(i) a" ; delete "rapid freezing step" and insert --step of rapidly freezing a food composition comprising AFPs--

Claim 17, delete "claim 8" and insert --claim 15--

4. Any inquiry concerning this communication or earlier communications from the examiner should be directed to N. Bhat whose telephone number is 571-272-1397. The examiner can normally be reached on Monday-Friday, 9:30AM-6:00PM.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Glenn Caldarola can be reached on 571-272-1444. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.
